Montreal

### PROFILE

Front-End Developer with three years of experience, dedicated to creating user-friendly interfaces and functional web applications. Skilled in Angular, React, and Vue frameworks, I enjoy designing UIs that prioritize simplicity and usability. Additionally, I'm comfortable handling backend tasks when needed. By staying informed about industry trends, I aim to continuously improve and deliver quality results.

### SKILLS

Front End Frameworks:

- Vue: 1.5 years of working experience
- Angular: 1 year of working experience
- React: 1 year of self-learning

CSS Frameworks:

- Bootstrap: 3 years of working experience
- Tailwind: 1.5 years of working experience

Backend Frameworks:

- Laravel: 1.5 years of working experience
- .Net / Blazor: 1.5 years of working experience

Testing:

- Pest: 1.5 years of working experience
- Dusk: 1.5 years of working experience

UI:

- Figma: 0.5 years of working experience

Other: Git, Docker
